# SUB COMPACT BOOMER 25C

## 25 HP | SMALL BUT MIGHTY

The Boomer 25C sub-compact tractor is the perfect small but mighty tractor for homeowners, hobby and lifestyle farmers who need a hardworking, versatile small tractor to handle the jobs other tractors can't. The economical, 25-horsepower Boomer 25C may be the smallest model in the Boomer line, but it's ready to take on your yard, farm, gardening and property maintenance jobs. Its compact size makes it easy to operate and manoeuvre around obstacles and in confined spaces.

- Ultra comfort, reversible high back seat and roomy, semi flat deck design.
- 2 - range Hydrostatic Transmission with a 450KG 3 point Hitch lift capacity and foldable ROPS.
- Safely work after dark with a lighting package that includes halogen headlights, front mounted work lights, tail lights, turn signals and flashers.
- 4WD tractor comes Standard with a 4in1 Loader, Backhoe or 60" Mid-Mount mower are optional components that can be purchased separately.\*

## WORKMASTER 40

**38HP | 3 CYLINDER ENGINE**

Workmaster™ 40 is a value compact tractor which combines top performance with top value. They're built tough, are easy to operate to give you years of dependable, trouble-free performance.

- The rugged, 3-cylinder, diesel engine uses a cast-iron block and heavy-duty internal components.
- Reliable horsepower and excellent fuel efficiency with a 3 range Hydrostatic Transmission or optional 12x12 mechanical transmission.
- A well-padded, contoured, flip-up seat glides on a track to operate comfortably.

**Workmaster 40**

**\$23,490\***

## TT3.50 LOADER + 4IN1 BUCKET

**50 HP | COMPACT & POWERFUL PERFORMANCE**

The NEW TT3 tractor has been designed for Australian farms as it's been designed with extensive feedback and input from farmers. Put simply, you could say the TT3 is a 'no-nonsense' machine for the budget conscious buyer. Characterised by smart design, rugged and robust construction, and efficient power, the TT3.50 delivers.

In order to meet the requirements of today's demands on a farm the TT3.50 delivers 50 horsepower, modern styling and unsurpassed performance in its class which makes it an ideal customer choice for value and versatility.

- Redesigned seat features include integrated suspension and extra cushioning for a smoother ride. The 'flip-up' armrests further enhances day-long comfort.
- The productive three-cylinder, 2.9 litre (S8000) FPT designed diesel engine packs a larger displacement and delivers greater power and efficiency thanks to its large capacity fuel tank so you can work even longer before filling up.
- 2WD and 4WD options available with 8x8 Synchro shuttle mechanical transmission. A flip-up PTO Safety shroud and heavy-duty swinging drawbar with clevis complement the three point linkage.
- Maintenance is easy with good under bonnet access, even with the class leading New Holland AP30 4in1 Front End Loader installed and the aggressive 9.5-24" 4WD front tyres.

## TT4.65

### LOADER + 4IN1 BUCKET

**65HP | THE SMART CHOICE**

New Holland Agriculture's TT4 tractor has a class leading weight and wheelbase to get the power to the ground. It's high seating position, enviable hydraulic flow & integrated joystick make it the smart choice for front end loader work.

#### EVERYDAY RELIABILITY

- The compact design of three-cylinder S8000 engines brings benefits. Not only does the short engine block help weight distribution and centre of gravity the turbo charged and intercooled design offers great fuel efficiency.

## TT4.75

### LOADER + 4IN1 BUCKET

**75HP | PRODUCTIVITY BOOSTER**

The spacious ROPS has a flat floor, wide pedal placement as well as New Holland's famous Lift-o-matic™ rear linkage system, ensuring operator comfort.

#### LOADER FRIENDLY POWERSHUTTLE

- Both the TT4.65 and TT4.75 models are offered with an Optional Column mounted Hydraulic power shuttle, for front Loader applications or speedy headland Turns. The hydraulic power shuttle really boosts productivity.

## TT4.90

### LOADER + 4IN1 BUCKET

**90HP | TURBO CHARGED**

Topping the TT4 lineup, the TT4.90 steps up to a 4 cylinder 3.9L engine, delivering reliable horsepower, and high torque.

#### TWELVE WORKING SPEEDS

- Featuring four speeds in each of the three working ranges, this transmission retains the traditional "H" shift pattern. The steering column mounted Hydraulic Power Shuttle lever selects forward or reverse without using the foot clutch. Ideally suited to demanding loader work.

DELIVERY OR SERVICE CHARGES MAY APPLY

## T4.75S

### LOADER + 4IN1 BUCKET

AVAILABLE IN 55HP | 65HP | 75HP

New Holland T4.75S tractors deliver 75 horsepower and is the perfect balance between modern efficiency and the demands for a simple tractor that just does exactly what you need. Four-wheel drive deliver added traction for even greater versatility.

#### VISIBILITY

- T4S tractors are offered with a new generation four-post cab that delivers the best all round visibility and operator environment in this tractor class.

#### TRANSMISSION

- Hydraulic Power Shuttle available in 12x12 transmissions, a T4S offers the specification choice to suit farmyard, or field, hobby farm or hay and forage enterprises.
- Available in three power options the T4.55S, T4.65S and T4.75S.

## TD5.100

### LOADER + 4IN1 BUCKET

AVAILABLE IN 90HP | 100HP | 110HP

Look and feel good during long working days, that's why the TD5 range offers the ultimate combination of segment-leading operator comfort in a stunningly good looking tractor. Beauty or functionality? The TD5 has both.

#### DISTINCTIVE STYLING

- The trademark cat eye front lights, together with the sloping bonnet guarantee optimum forward visibility, and the rear work lights integrated into the redesigned roof ensure the family feel from every angle.

#### POWER OF CHOICE

- The entire TD5 range is powered by reliable mechanically fuel injected engines which offer super-easy maintenance.
- Available in three power options from 90hp, 100hp and 110hp.

## T4.F/N/V SPECIALTY BLUE CAB 4

AVAILABLE IN 75HP - 110HP

New Holland, a leader in speciality tractor design, has enhanced its new four-model T4 F series to offer more power and performance, advanced cab filtration, more powerful hydraulics and a new front linkage and PTO package. Each model can be tailored to meet exacting specialist needs affordably and with proven dependability.

### ADVANCED ELECTRONIC DRAFT CONTROL FOR OPTIMUM PERFORMANCE

- EDC allows the operator to precisely set up and control complement working depths, lift height and lowering speeds.
- Other features include a finger tip controlled fast raise and lower rocker switch.

### VERSATILE LINKAGE WITH HIGH CAPACITY

- The rear linkage is adjustable to match Cat I or Cat II implements.
- All T4F models offer high lift capacities, up to 2600kg.
- Quick-attach couplings are standard as are remote linkage controls.

## T5.100S ELECTRO COMMAND

AVAILABLE IN 90HP | 100HP | 110HP

The T5.S Electro Command™ series with Semi Powershift transmission with 16 forward and 16 reverse gear options. This machine lifts the choices for farmers in today's demanding world. The T5.100S delivers more with 3800kg lift capacity with a tier 3 engine.

### TRUE RELIABILITY

- With the powerful S8000 engine, the T5.S Electro Command™ tractor series are ready to handle any challenging work.

### REAL PERFORMANCE

- The high value Torque values, and turbo-intercooler with a 145L fuel tank provides uninterrupted operation over extended periods of time.
- Available in three power options the T5.S Electro Command™ range offers high performance and economical use from 90hp, 100hp and 110hp.

DELIVERY OR SERVICE CHARGES MAY APPLY

## T6000

### T6020 | T6050 | T6070

AVAILABLE IN 112HP | 127HP | 141HP

The T6000 Series forms the backbone of New Holland's 110 to 150 horsepower segment. This tried-and-true model range is renowned with our customers for its quality, ergonomic cab design, reliability, and performance across a wide variety of farming applications, from front-end loader work, round baling and slashing to ploughing and seeding.

#### SPACIOUS CAB

- The Horizon Cab offers excellent visibility – with a total glass area of 5.87m<sup>2</sup>, C-Pillar hinged wide opening doors, and the Hi Visibility Roof Panel, you have an unobstructed view of the paddock. Cab suspension is also a standard feature.

## T6

### T6.145 | T6.155 | T6.165 | T6.175 | T6.180

AVAILABLE IN 115HP | 125HP | 135HP | 145HP

The T6 range is New Holland's premium tractor in the 110 – 150 HP segment. Offered in both 4 and 6 cylinder variants, the T6 can be customised with a variety of options such as Auto Guidance, ISOBUS Class III, Telematics and Front Linkage/PTO.

#### TWO TRANSMISSION OPTIONS

- The Dynamic Command is a Dual Clutch Transmission (DCT) with features such as
  - Dynamic Start/Stop - clutchless braking,
  - Smooth Shift – matching transmission load to engine RPM to provide seamless shifting,
  - Memory shuttle – allowing custom FWD & REV gears to be pre-selected.
- The Auto Command CVT offers seamless shifting from 0.02km/h – 50km/h.

DELIVERY OR SERVICE CHARGES MAY APPLY

## PRO-BELT SUPERFEED PREMIUM ROUND BALER

AVAILABLE IN 165 | 190 MODELS

The all-new New Holland, Pro-Belt™ premium round baler range delivers the performance and reliability that professionals and contractors can rely on.

### MASTERPIECE IN THE ROUND

- Pro-Belt 165 and 190 deliver solid and square shouldered round bales with impressive capacity from either the renowned SuperFeed™ or new 25 knife CropCutter™ large diameter rotor feeding systems.

### DURABILITY BY DESIGN

- Pro-Belt round balers have been proven the world over with over 150,000 bales produced since it launched to market. The all-new heavy-duty drivelines, a more robust frame, and the re-imaged bale chamber deliver professional grade uptime and bales with high density.
- The latest precision farming solutions including ISOBUS electronics offers a simple user interface to track all baler functions and quickly adjust on-the-go, track individual bale moisture, and average bale moisture then make smart real time agronomic decisions.

## BC5070 SMALL SQUARE BALER

BUILT FOR AUSTRALIAN CONDITIONS

75 years since the first New Holland balers arrived in Australia. New Holland is still producing consistent firm bales which is a major benefit of the BC5000 balers. The long bale chamber, allowing for a long plunger stroke, combined with the high plunger speed, ensures a 1st class quality bale formation. Hydraulic Adjustable top bale chamber rails and adjustable bale case doors allow for a perfect setting of the required density.

### EQUAL BALES MADE FOR EASY STACKING

- Large diameter pick-up and a side delivery feed system using rotor feeder & packer fork ensures that crop is gently & consistently packed into the bale chamber forming a quality bale. Side plunger knife gives perfect bale appearance in all crop types.

### EASILY MAINTAINED

- Hydraulic drawbar swing and pickup lift allow fast operation to change from road to field position. The knotters are easily maintained via an oil distribution system. \*BC5070 model only.

## SKID STEER L318

**60HP | ROBUST AND STRONG**

New Holland 300 Series skid steers are robust and strong. In addition to being reliable, all this with low fuel consumption, easy maintenance and reduced operational costs.

### **SUPER BOOM® BETTER STABILITY, HEIGHT AND DISCHARGE RANGE**

- As the loader arms go up, it moves the load forward, not back, toward the operator. Combined with a Larger Bucket Closure Angle; this provides better material retention and efficiency.

### **EXCELLENT WORK IN SEVERE CONDITIONS**

- Excels in restricted spaces with high performance and security. The longest wheelbase in the category, guarantees comfort and stability even on uneven terrain.

## COMPACT TRACK LOADER C327

**74HP | COMFORTABLE CAB**

New Holland engineers used input from hundreds of customers to design our innovative line of compact track loaders.

### **BUILT AROUND YOU**

- Our industry leading bucket breakout force and dump angle provide fast cycle times and improve productivity.

### **OPERATING ENVIRONMENT**

- The Compact Track Loader has one of the widest, most comfortable cabs in the industry, giving you more head and foot room, and offering twice the visibility in critical zones.

### **SUPERIOR FEATURES**

- Keyless start, a Glide Ride option, available heated or air-ride seat and a self-leveling bucket feature.

## MINI EXCAVATORS

**17HP - 60HP | 6 MODELS AVAILABLE**

Big digging power in restricted areas and congested work sites with a C Series compact excavator. The dozer blade and auxiliary hydraulics are standard equipment to improve your bottom line.

### **ENGINE BUILT FOR EXCAVATION**

- New Holland C Series compact tracked excavators with a quiet Tier 4 final engine. The E17C comes with 17hp and E26C comes with a 26hp engine built to excavate, grade and backfills with one machine and save fuel while doing it.

### **DIG WITH CONFIDENCE**

- SAE bucket breakout digging force with the E17C delivering 3,490 lbf and dig depth up to 7'3", while the E26C delivers 4,740 lbf and dig depth up to 7'11" This mini excavator ensures top-of-class ground clearance and excellent dozer blade lift height working in rough conditions.
